

# Welcome

Welcome to your next issue of "Smile Connections", our newsletter designed to inform and entertain you ... while providing information you can personally use and from which you can benefit.

What type of information? We try to include articles which can help you to maintain good oral health and enjoy bright smiles. If you have any suggestion or new idea, please call, email or fax it to us.

You'll be kept abreast of important office news like changes in office hours or the addition of new staff, plus new procedures and equipment that will make your visits a more comfortable and personal experience. We want you to enjoy every single issue so that you will read it, use it, and benefit from it.

Yours in good dental health,

Ravneet Dhugga, D.D.S.

## Look! No Braces!

Today, about one orthodontic patient in five is between twenty and sixty years of age. Orthodontics involves gently pushing your teeth into place over a period of months or years.

We're very excited to introduce you to invisible braces, a revolutionary technique that has brightened the smiles of thousands of patients. This technique uses a series of clear, removable aligners to gradually straighten teeth. They are comfortable, and because they're made with medical-grade plastic, they're virtually invisible. Because the aligners are removable, your daily brushing and flossing are not affected in any way, and you can eat anything you fancy!

We welcome you to call our office to ask questions or to arrange a consultation to discover how invisible aligners can help give you the smile you've always wanted!

## Whitening Savvy

Does the number of in-store teeth whitening products provide genuine consumer choice? In reality, many patients experience a bewildering jumble of products that don't necessarily address your specific need - your unique smile. We can provide you with a whitening treatment that is both safe and effective, and which is the best fit for your smile.

### We can...

- Whiten accumulated surface stains created by everyday eating and drinking.
- Remove stains in tooth structure caused by illness or medication —something only a dentist can do.

And now there's even more reason to smile! For a limited time, we're offering a Whitening Special!

**\$299**

**ONE HOUR IN OFFICE  
TEETH WHITENING**

- Free Cosmetic Consultation
- Free Take Home Maintenance Kit

**\$499 Value**

**FREE**

**Teeth Whitening**  
With Invisalign (Clear Braces)

## New Patient Special

At Waterview Dental Care, we take pride in bringing added value to every patient by meeting all of your dental needs here in one location and by offering a comprehensive range of dental products, technology, and procedures. Our team is trained to put you at ease and will be happy to answer any questions or concerns you might have.

We would really like the opportunity to get to know you — and because of this, we are giving you another reason to smile. We have a limited-time special offer for new patients only! To take advantage, call us today! We are confident you'll be very pleased that you did!

**Call Today! (707) 864-3535**

## Tooth Mysteries

*Different cultures celebrate with different traditions. Even true for the loss of primary teeth! Can you guess which country has which tradition?*

- 1** If it's a lower baby tooth, throw it up onto the roof so that the new tooth grows healthy and upwards. If it's an upper tooth, throw it underneath the house so that the new tooth grows healthy and downwards.
- 2** A tooth fairy comes during the night, scoops the tooth that has been placed under the child's pillow, and replaces it with money.
- 3** The baby tooth is placed under the child's pillow at night. The fairy takes the tooth while the child is asleep, and replaces it with a tiny present.
- 4** A mouse, not a fairy, takes the child's tooth during the night and leaves some money.
